Grade 3 Math: Multiplication & Division

Master the times tables and their matching division facts with arrays, fact families, drills and word problems.

How to use this workbook

Work through the chapters in order, or jump to the skill your child needs most.
 Each skill has three different sheets (A, B and C) so you can practise, review and test.
 Do one or two sheets a day. Short, regular practice works better than long sessions.
 Check answers using the answer key at the back of the book, then talk about any mistakes.
 Print the pages you need on A4 or Letter paper; scale to fit if your printer asks.
